OBJECTIVE

I am seeking challenging opportunities in software development where I can apply and enhance my skills in both front-end and back-end, while contributing to the growth and success of the company.

RESUMO

I am a software developer with experience in front-end projects, devops, and project management. Throughout my career, I have worked with various technologies including Angular, .NET, AWS, Google Cloud, and Azure DevOps. I am passionate about learning new technologies and integrating them into complex projects, delivering high-quality solutions that meet clients' needs. Additionally, I have skills in communication and teamwork, allowing me to successfully lead projects and work with people from different backgrounds.

EXPERIÊNCIA

Ticketshare, SP — Tech Lead

SINCE JULY 2022

- Led the development of a ticket-selling startup for parties and shows, using Angular and .NET as primary technologies.
- Acted as a full-stack developer, leading the front-end development and working on some back-end functionalities in collaboration with a freelancer.
- Responsible for deploying the application using GCP (Google Cloud Platform) tools and Google Play Console for the application.
- Successfully handled a test party for the application with 500 people, demonstrating the ability to handle high traffic loads..
- Utilized Azure DevOps and Scrum to organize and manage project tasks, ensuring deliveries were made efficiently and within established deadlines.

ExamRoom.AI, India — Full-stack Developer

APRIL 2022 - JULY 2022

- Developed and maintained functionalities for ExamRoom.AI, a platform for administering medical exams in the United States.
- Collaborated with a diverse team of developers and communicated daily in English to perform my activities, ensuring the successful delivery of features and problem-solving.

Basic Spanish

Basic German

- Used Angular and .NET technologies to solve bugs and develop new functionalities for the platform's front-end and back-end.
- Contributed to creating a product that helps people take medical exams remotely, offering a safe and convenient solution in challenging times.
- Experience in agile methodologies, using Jira and Scrum to organize daily tasks.

EDUCATION

Universidade Anhembi Morumbi -
Análise e Desenvolvimento de
Sistemas

October 2021 - June 2023

Pitang, SP— Junior Developer / Intern

MAY 2021 - APRIL 2022

- Completed a six-month internship, working on a project developed with Angular and .NET, gaining experience in all areas of the project and assisting the QA team in developing automated tests.
- Promoted to Junior Front-end Developer after completing the internship, taking responsibility for developing an electronic bidding system in Angular 10, using designs created by the team's designers and integrating the front-end with the back-end.
- Demonstrated proficiency in Angular development, as well as the ability to learn new technologies like Nebular and integrate them into complex projects.
- Effectively collaborated with the team to drive successful project results, delivering high-quality work that exceeded expectations.
